

Junior Recruitment

New Forest Golf Club is proud of its Junior section, the progress made by all members and the heights attained by some of its previous members.

We recall the moments we saw the first swings that resulted in the ball going nowhere, then anywhere and then somewhere but always with understanding, good humour and warm encouragement from our club members and coaches.

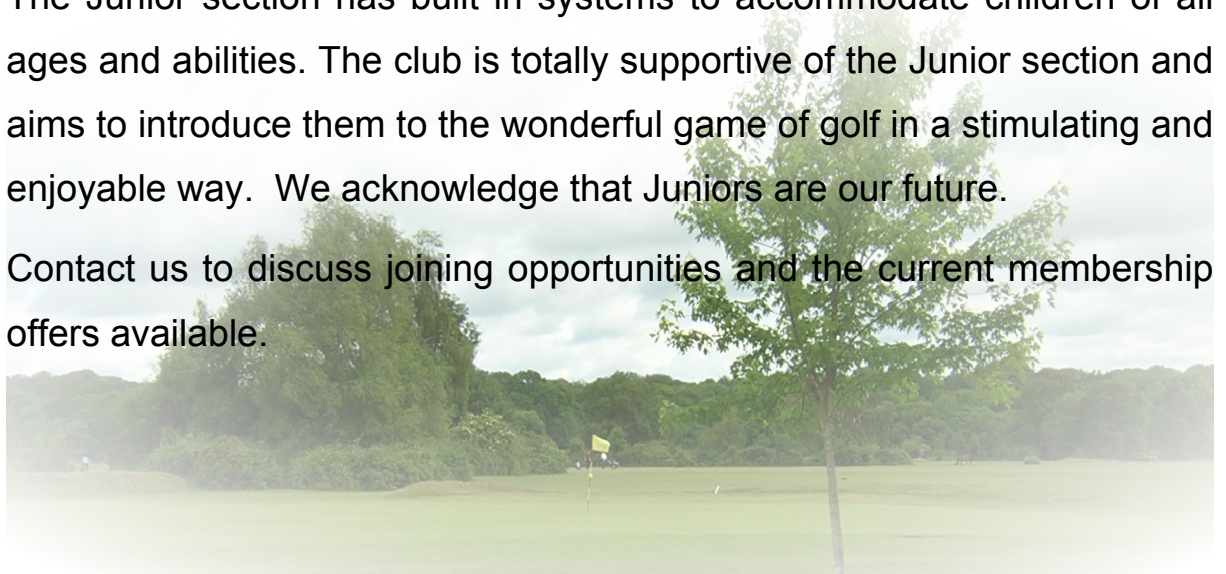

The Junior section is always looking for new members, all standards are acceptable, from complete beginners to low handicap players.

If you are a parent or a grandparent how about getting the children involved and maybe giving them membership as a birthday or Christmas present. It is the one present that will last a life time.

We sometimes hear when Juniors first start playing the game that they struggle and feel a little embarrassed. We have all been there starting as a novice but then it all clicks into place and we climb the ladder, going from nowhere to somewhere. It is a fantastic feeling when it all comes together.

The Junior section has built in systems to accommodate children of all ages and abilities. The club is totally supportive of the Junior section and aims to introduce them to the wonderful game of golf in a stimulating and enjoyable way. We acknowledge that Juniors are our future.

Contact us to discuss joining opportunities and the current membership offers available.
